Steph Curry 3-Point Shot Statistics

- Steph Curry suffered from ankle injuries in the 2011-2012 season and hand injuries in the 2019-2020, resulting in a visible dip in 3-point shots attempted and made.

- 2015-2016 was the season with the highest percentage of 3-point shots made in a match, the same season when Steph Curry was voted as the unanimous MVP.

## Winning Chance Relative to Teams Played

Steph Curry Win Chnace Relative to Teams Selected (2009-Present)

- Steph Curry likely has a worse percentage against a team like the Boston Celtics as they have historically been a good team since Curry has joined the league. On the other hand a team like the Sacramento Kings has been the opposite so his percentage against them is higher.

Assists made for Minutes Played

Steph Curry Assists per Minute Played

- The heatmap demonstates Steph Curry's average assists made for the amount of minutes played in a game.

- Stephen Curry normally averages 4-8 assists and 30-40 minutes played per game.
